Shelly,

We have had an opportunity to review EPA's Comments and would like to take you up on your offer of an extension. However, I'm not sure how much additional time to request without feedback from you. We would very much like the opportunity to discuss the Comments with you directly prior to providing a response so that we can present our questions and concerns. Our goal in doing so is to, hopefully, reach resolution on the issues and thus provide an effective response to the Comments. In other words, we want to confirm that all parties are on the same page. Would you be willing to have this discussion, and if so, when would you be available? Unfortunately, with the holiday, most of the project team, including myself, are not available Wednesday through Friday of this week, which leaves tomorrow or next week. Thank you.

Brent
